On the *move...*

Some tips you may find helpful

- Make a list of jobs to be done for each of the weeks leading up to the move day
- Check cost of removers and availability
- Make a written plan about what you want to go where
- Research utility providers and start arranging switch over
- Be ruthless.. throw out items you no longer use. Make piles of items in each room "keep" "throw out" or "undecided"
- Sort out parking permits for the new property in advance
- Arrange for children and pets to be babysat on moving date

DON'T

- Make bacon sarnies for the removers...you will only have to tidy up and it will take up valuable time.
- Leave packing until the day before.
- Plan to do the move yourself. Packing up a house into a van is an art.

When you have the keys to your new home...

Make sure your beds are unpacked and made up... order a take away, open a bottle of your favourite tipple.... Ahh...the rest can wait!
